Recommendation of ERL Contracting, LLC - Eric Lara, Owner and Contractor

To Whom It May Concern:

We contracted ERL Contracting to remodel our home including converting our garage into living quarters and adding on a new garage. In every detail and in every part of the project, Eric was not only professional but also a perfectionist. The project was done according to plan and completed ahead of schedule and to the highest building standards and workmanship I have ever experienced. The result is a beautiful new living space and garage that look as if they were part of the original construction, only better built.

Without qualification, I recommend Eric Lara and his firm, ERL Contracting LLC for any building projects where quality, workmanship and professionalism are required. I will not hesitate to use ERL for every building project that I take on in the future.

Most sincerely,

Jack Nelson
