Dear Lara Custom Builders:

Thank you for building our terrific new custom RV Garage.

We love the matching architecture to our home and have received so many positive comments from friends and neighbors.

Your dedication to detail, maintaining construction schedules, and finishing quality to our requests were all exceptional.

Again, we are happy with our finished garage and all your careful attention to our requests from the design stage right through the entire building process.

Thank you again,

J.T. & Cheryl Williams
